

# PREPARATION FOR THE 2024 INTER-CENSAL POPULATION AND HOUSING SURVEY

Dr. Vu Thi Thu THUY, Director

Department of Data Collection and IT Application,

The Vietnam General Statistics Office

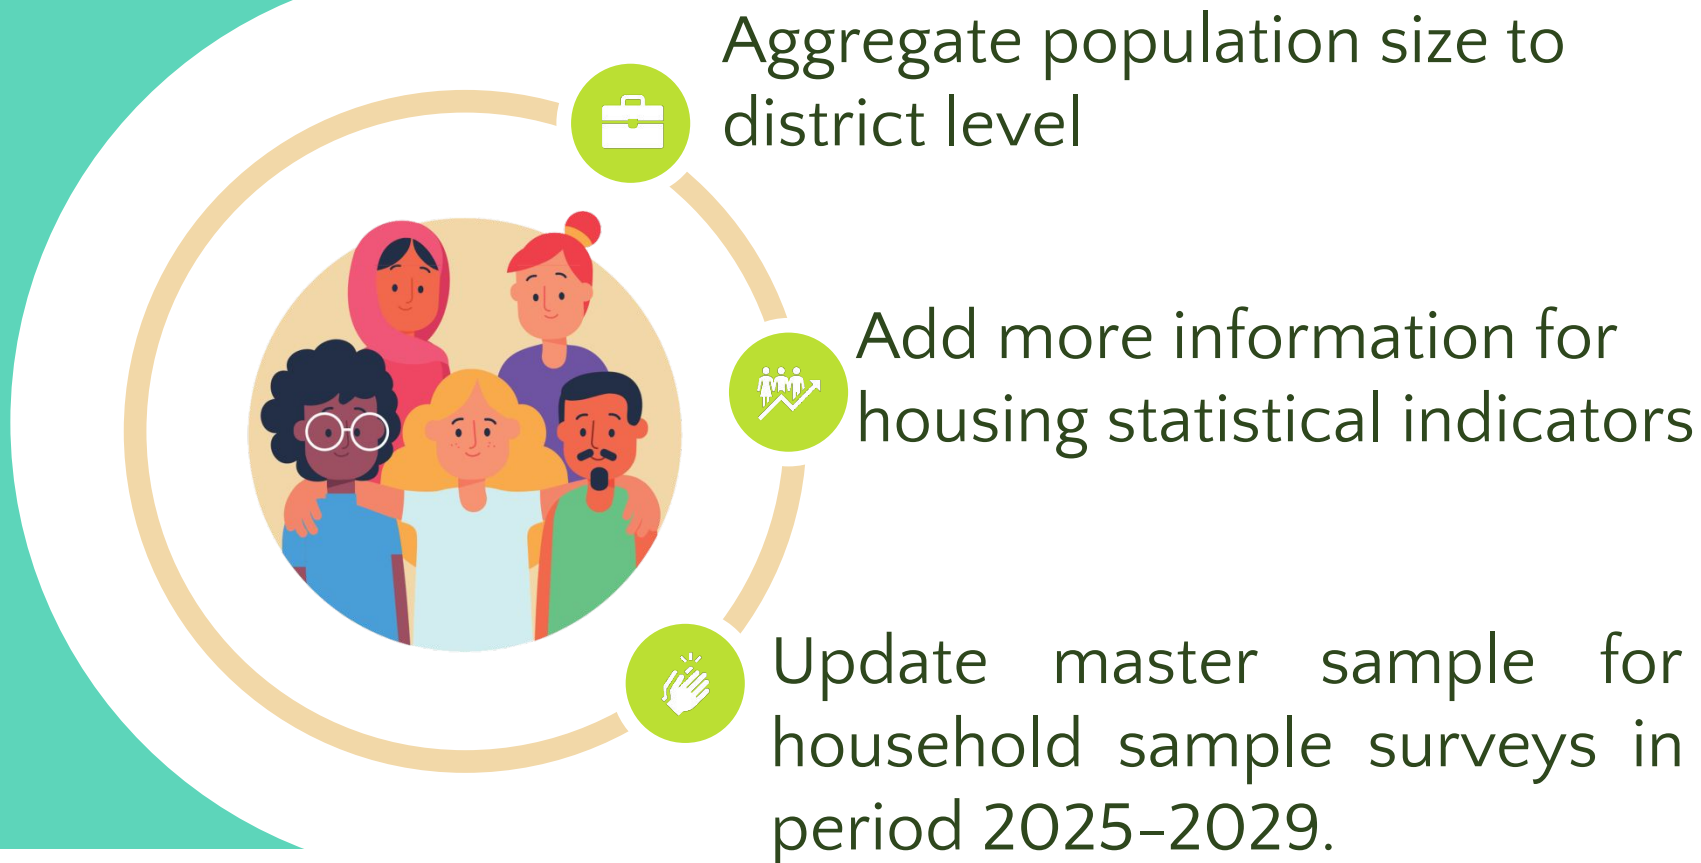

# OVERVIEW OF VIETNAM POPULATION AND HOUSING CENSUS

- Conducted every 10 year (year 0), 0h00 April 1<sup>st</sup>. Using short-form questionnaire (all pop) and long-form quest (app 10% of pop).
- Between each pop census round: Inter-censal pop survey (year 4), 0h00 April 1<sup>st</sup>. Using long-form questionnaire (app 5% of pop) => pop census.
- 7<sup>th</sup> Population and Housing Census in 2019 with part technical support and cooperation of Vietnam UNFPA:
  - ✓ 99.9% households provided information through electronic questionnaires (CAPI and Webform/Online). In which, less than 1% self-administration used Webform.
  - ✓ Software: self-built to meet requirements of management, real-time data during fieldwork
  - ✓ Devices: owned devices of interviewers
  - ✓ Timeline:
    - Fieldwork: 1<sup>st</sup> April to 20<sup>th</sup> April, 2019 (Online collected parallel in the first 15 days based on the list registered during listing households)
    - Preliminary report: July 2019
    - Full results: December 2019     => Completed main tasks right before Covid-19 outbreak in Vietnam
    - In-depth analysis: December 2020

# THE 2024 INTER-CENSAL POPULATION AND HOUSING SURVEY

“

Collecting information to assess population size and changes at a larger scale than the annual survey but smaller than the Census

# CONTENT

## THE 2024 INTER-CENSAL POPULATION AND HOUSING SURVEY

Update the list of localities (village, commune, district)

---

Update master sample for Inter-censal survey

---

Design sample for Inter-censal survey and sample selection

---

Develop the survey protocol, tools; taking pilot in in 03 provinces

---

Process, clean, synthesizie the results of the pilot survey to make the pilot report for completing the survey protocol

# TASK & PROPOSED COOPERATION

*«03 tasks»*

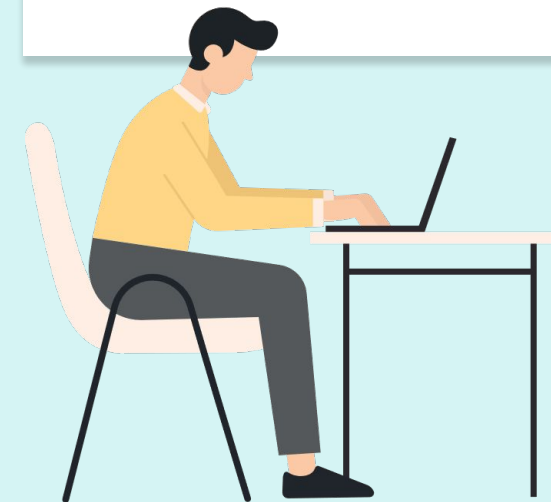

# 01 Update the list and population of villages, communes, districts

**Update the list and population of localities in addition collecting some information from households for other economic surveys as:**

- Households business activities
- Type of household business (Enterprise, individual/associated household, other forms)
- Products, services
- GPS of household (Using digital map, connected to GIS from the 2019 Census)
- Housing

## Areas to be concentrated:

- Design questionnaires
- Technology on using GPS to find households
- Coding production and business industry automatically using AI

## 02 Update the master sample

“

The master sample is developed in 2018 for the 2019 Census. So far, administrative units have been changed after 5 years and needed to be update for Inter-Cnsal survey and other household surveys up to 2029.

### Areas of concentration:

1. Sample design for the 2024 Inter-censal survey
2. Train knowledge for staff of GSO for designing sample

## 03 Design of the 2024 Inter censal survey

Develop tools for the 2024 Inter censal survey

Implement pilot survey in 03 provinces

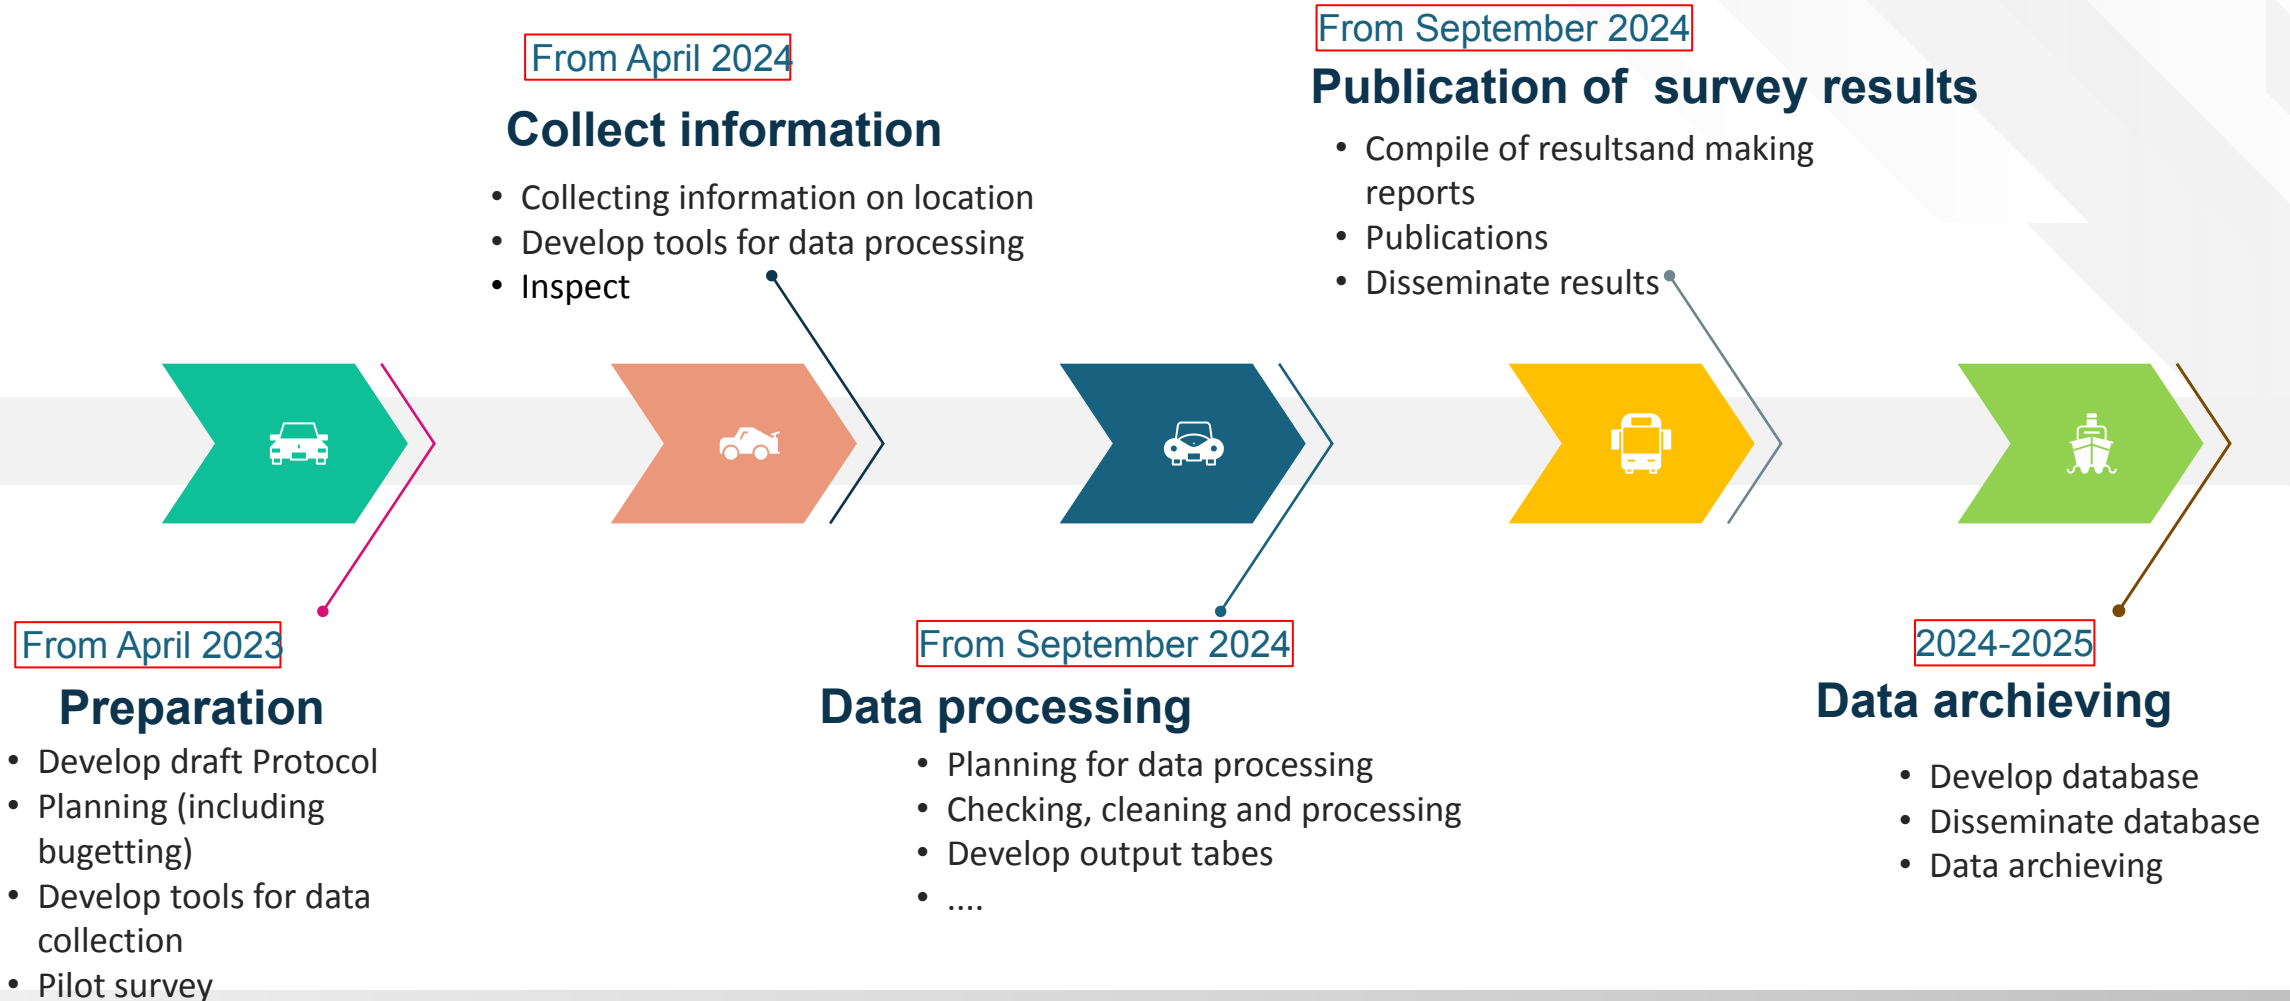

Complete the 2024 Inter censal survey protocol

### □ Areas of concentration:

- Using a **digital map to develop tool to find households** for data collection and monitoring.
- Data security when using owned device of interviewers
- Automatic coding

# PLANNING FOR IMPLEMENTATION INTER CENSAL SURVEY 2024

# RECOMMENDATIONS

- UNFPA cooperates with other organizations and NSOs to update population census methodologies due to many changes in reality
  - ✓ Mode: face to face => self-administration
  - ✓ New technology: electronic questionnaire; GPS for EA forming and fieldwork supporting; AI (coding, data checking and cleaning)
  - ✓ Difficulties on accessing hh and respondents
  - ✓ Skip information (partly non-response/unknown value) => how to impute
  - ✓ Trend of using administrative data supports for pop census
- Regional and global training on methodology
- Promoting cooperations

The background features a close-up of hands writing on a notepad with a pen. A semi-transparent teal rectangle is overlaid on the image, containing the text. The entire scene is framed by a thin black double-line border with rounded corners.

# Thank You!
